textiles KORA

Product Technical Data Sheet

Product Sheet

Material Code: Autotkanina 45.01.10

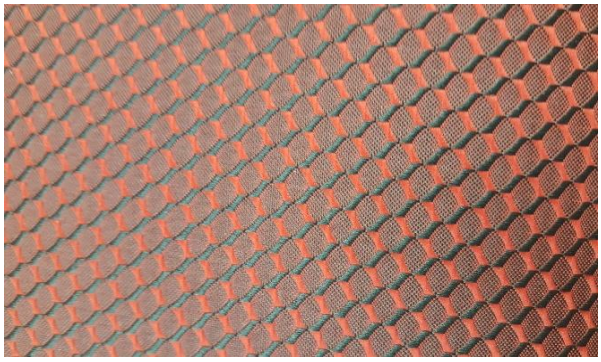
Descripcion: STTKANINA00045155/140CZERWONA00

Typology: Woven fabric

Aplication: Technical fabric for lamination

Composition	%	Fibre
PES Polyester	100	PES

Features		UM	Standard	Tolerance
Width	UNI EN 1773	CM	153	150-155
Weight	FIAT 50440	G/M²	140	135-145
Thickness	ISO9073-2	MM	1,5	1,2-1,7
Tensile Strenght	ISO9073-3	N/CM	>150	
Elongation	ISO9073-3	%	>25	
Abrasion	Martindale	CYCLES	>50 000	
Flammability	BS5852		YES	



Colour: Black and red

Storage and delivery conditions

Margine width 20mm on every side
Packed in plastic foil and storage in dry area
Delivery in jumbo rolls, max 3 sewing
Volume in one roll about 200-600 lm
Cardboard tube with inside parameters 76 mm
